

6.Gym Membership Automation Suite — Workflow Options Use Case

Aim:

To design and build a complete automation layer in Zoho Creator for the "Gym Membership Enrollment" application, demonstrating the correct usage of all eight Workflow options to ensure the membership lifecycle runs seamlessly with minimal manual intervention.

Workflow Options Used Overview

Workflow Option	Workflow Name	Purpose	Trigger / Frequency
Form Workflows	On_Enrollment_Submit_Workflow	Sends an instant welcome email to the new member and notifies the assigned trainer.	Triggered instantly on Add (form submission) of Membership_Enrollment_Form.
Schedules	Daily_Renewal_Reminder_Schedule	Identifies memberships expiring within the next 7 days and sends reminder emails.	Scheduled to run daily at 9:00 AM.

Approvals	Corporate_Bulk_Enrollment_Approval	Routes corporate or bulk-discount enrollments to the manager for approval before activation.	Triggered on Add/Edit when Membership_Type equals 'Corporate' or bulk batch.
Payments	Membership_Fee_Payment_Workflow	Generates a payment link for the computed total, redirects to the gateway, and updates fee status.	Triggered immediately after form submission, before the welcome email.
Blueprints	Membership_Lifecycle_Blueprint	Defines and enforces the full membership lifecycle as a controlle	Applied to records in Membership_Enrollment_Report (Enquiry → Active → Expired).

		d sequence of stages.	
Batch Workflows	Bulk_Expiry_Notification_Batch	Processes memberships expiring within the current month in controlled batches with renewal offers.	Triggered automatically on the 1st of every month in batches of 150.
Report Workflows	OnEdit_Recalculate_Fee_Workflow	Recalculates the total amount payable when front-desk staff manually edit fees or discounts .	Triggered on Edit of any record within Membership_Enrollment_Report.
Functions	Generate_Membership_Card_Function	Generates a personalized digital members	Invoked on-demand via a button or reused by enrollment approval workflows.

		hip card with a photo and QR code and emails it.

Automation Details & Workflow Breakdown

1. **Form Workflows (On_Enrollment_Submit_Workflow):** Fired instantly upon record creation to dispatch welcome packages and alert trainers. Configured with error logging for invalid email entries.
2. **Schedules (Daily_Renewal_Reminder_Schedule):** Scans the database daily for impending expirations (within 7 days) and triggers reminder emails, capped at a maximum of 3 notifications per member.
3. **Approvals (Corporate_Bulk_Enrollment_Approval):** Enforces a managerial review checkpoint for corporate tie-ups, keeping records at 'Pending Approval' status with designated fallback approvers.
4. **Payments (Membership_Fee_Payment_Workflow):** Interfaces with external payment gateway connectors to automate secure billing links and transaction reconciliation with a 3-retry callback mechanism.
5. **Blueprints (Membership_Lifecycle_Blueprint):** Implements strict role-based gating across lifecycle stages (Document Verification → Payment → Active), requiring mandatory audit comments for every transition.
6. **Batch Workflows (Bulk_Expiry_Notification_Batch):** Handles large-scale monthly notifications by segmenting execution into configurable batches (default 150 records) to prevent system timeouts.
7. **Report Workflows (OnEdit_Recalculate_Fee_Workflow):** Restricts execution to specific field updates (Membership Fee or Discount) to maintain accurate ledger calculations instantly within grid views.
8. **Functions (Generate_Membership_Card_Function):** Centralizes card creation logic using Deluge scripts, incorporating input validation and multi-source invocation across buttons and automated workflows.

Result:

A complete, robust automation layer encompassing all eight Zoho Creator workflow options has been successfully configured, verified, and integrated into the **Gym Membership Enrollment** application.
