Detailed Report Descriptions

1. Member_Details_Report (List View)

- **Purpose:** Default landing report for the front desk administration, displaying all registered gym members in a clean, searchable tabular format.
- **Features:** Includes a global search bar, sorting options, and column-level filters for member names, contact numbers, email addresses, emergency contacts, plan types, and assigned personal trainers.

2. Membership_Spreadsheet (Spreadsheet View)

- **Purpose:** Utilized daily by membership coordinators to quickly review and update subscription statuses, weight goals, or locker allocations in an interactive grid layout.

- **Features:** Allows inline editing for specific operational fields while keeping baseline personal information read-only for data security and integrity.

3. Membership_Status_Kanban (Kanban View)

- **Purpose:** Provides a visual pipeline for tracking how member subscriptions progress through different lifecycle stages (e.g., Active, Expiring Soon, Frozen, and Expired/Cancelled).
- **Features:** Cards can be dragged across status columns to automatically update the underlying membership status field in the database.

4. Trainer_Schedule_Calendar (Calendar View)

- **Purpose:** Used by fitness trainers and gym management to monitor and manage scheduled personal training sessions, group fitness classes, and client consultations.
- **Features:** Monthly, weekly, and daily grid views allowing quick identification of trainer availability and booked workout slots.

5. Gym_Branch_Location_Map (Map View)

- **Purpose:** Deployed by the regional operations team to visualize the geographical distribution of members across various city branches and residential zones.
- **Features:** Geocode-enabled pin placement to identify high-density member zones and plan targeted promotional outreach or new branch setups.

6. Member_CheckIn_Timeline (Timeline View)

- **Purpose:** Enables management to track daily gym traffic flow, peak hour utilization, and member check-in frequencies across specific hours and days of the week.
- **Features:** Chronological breakdown highlighting peak gym occupancy periods to optimize staff shifts and equipment availability.

7. PlanType_By_TrainerType_Pivot (Pivot Table)

- **Purpose:** Summarizes relationships between membership plan categories, trainer allocations, and aggregate payment metrics to analyze popularity trends.
- **Features:** Provides matrix totals and grand counts for comparative internal revenue and resource allocation review.

8. Membership_Distribution_Chart (Chart View)

- **Purpose:** Visually compares active membership tiers (e.g., Monthly, Quarterly, Annual) and gender/age demographics using interactive graphical charts and filters.
- **Features:** Dynamic sorting and multi-legend filters for tracking plan popularity and membership acquisition channels.

9. Revenue_Wise_Summary (Summary View)

- **Purpose:** Aggregates core financial metrics, including total revenue collected from merchandise, personal training, and subscription renewals to support executive board evaluations.
- **Features:** Displays calculated totals, grouped averages, and category-wise breakdowns for quick financial overviews.
